WEATHER KEY POINTS

03/22/20 - 03/28/20

Sunday-Monday

- The first storm system will move through primarily the southern half of the state, bringing valley rain and snow above 4500-5500 feet
 - Some minor to moderate travel impacts are possible in the mountains of Inland Region (including the Sierra) and some Southern Region mountains due to accumulating snowfall and gusty winds
 - This event will bring the heaviest rainfall rates of the week for Southern Region, with moderate to heavy rainfall possible in some locations, and urban flooding possible
 - There is a threat of mud/rockslides in the foothills; concerns about flooding on recent burn scars, including the Ferguson/Briceburg burn area, are lower than they were yesterday
 - Thunderstorms could bring strong, gusty winds and small hail, especially along the southern and central coast on Sunday

Tuesday-Wednesday

- A second, colder storm system will move through the state, with the heaviest snowfall expected in the Sierra Tuesday into early Wednesday
 - Lower snow levels are expected with this event, generally around 2000-3500 feet
 - Travel will likely be impacted in the mountains due to gusty winds and accumulating moderate to heavy snowfall

Thursday-Saturday

- Some lingering showers are possible, especially in northern CA, but in general no significant impacts are expected heading into next weekend
